SURFACE MOUNTED FACIAL TISSUE DISPENSER

ELEVATION

SIDE VIEW

SPECIFICATION

Surface Mounted Facial Tissue Dispenser shall hold and dispense 300 single sheets or 150 two-ply sheets. Cover shall be fabricated of alloy 18-8 stainless steel, type 304, 22 gauge. Towel dispensing slot shall have a fully hemmed-in rolled edge for snag-free dispensing and user safety. Back cover/mounting plate shall be fabricated of 22 gauge corrosion protected steel. All exposed surfaces shall be N°4 satin finish and be protected during shipment with a PVC film easily removable after installation.

Surface Mounted Facial Tissue Dispenser shall be Model N° 0258-SS as manufactured by American Specialties, Inc., 441 Saw Mill River Road Yonkers, New York 10701-4913

INSTALLATION

Mounting plate is surface mounted on wall or partition using N° 10 self tapping screws (by others). Front cover snaps onto the back cover/mounting plate. For compliance with ADA Accessibility Guidelines, unit should be installed so that towel dispenser slot is 54" (1372mm) maximum above finished floor (AFF) if clear floor side reach access is provided or 48" (1219mm) maximum AFF if clear floor forward reach access only is provided or 46" (1168mm) maximum AFF if side reach over an obstruction only is provided (i.e.vanity).

OPERATION

Towels are self-feeding from loaded supply box until supply is depleted. Unit is reloaded with opened full box and first sheet is fed through to slot to start. Maintenance needs determine service cycle.
